

Introducing Zenith Edge ZSP9 5G, designed to elevate your business operations.

Capture business events in high quality and videoconference on a superfluid display. Work virtually lag-free with 5G on the Edge ZSP9 5G. Packed with all the needed essentials, this phone makes excellent features easily available to you and your team.

Take product photography from any angle of camera, and edit projects on a clear, bright screen. Speed up your workflow with 5G and a powerful processor that keeps you productive. With all-new stereo speakers, stay fully tuned in to whatever you're listening to — whether that's podcasts by thought leaders, training materials, or client calls. Plus, worry less as Knox Security helps protect your company's data from the chip up.

****Capture Scroll-Stop Content:** ** The high-resolution camera ensures showcase of dazzling product details, engaging social campaigns, and detailed customer demos with exceptional clarity.

****Store More, Worry Less:** ** With its large internal and expandable storage, the Edge ZSP9 5G allows us to store all our essential files without concern for space limitations.

****A Bright Screen for Every Bright Idea:** ** The display provides a clear and crisp viewing experience, making it ideal for document editing,

and online research.

****Conference-Worthy Sound Right from Your Phone:** ** Sensational sound quality ensures total immersion in important client conversations and logistic details, improving communication effectiveness.

The Edge ZSP9 5G is designed to support our daily tasks and enhance our overall performance.

Primary Rear Camera	50MP	IP Grading Wireless Connectivity	IP67 Built-in WiFi, Bluetooth 5.1, 4G/5G Cellular
Memory (RAM) and Storage	Up to 8GB RAM 128GB Storage Expandable upto 2TB	Expansion Slot Weight	USB Type-C Approx 200g

Points to noted: Measured diagonally, the screen size is 6.5" in the full rectangle and 6.3" accounting for the rounded corners. The actual viewable area is less due to the rounded corners and the camera cutout. 5G speeds vary and require optimal network and connection (factors include frequency, bandwidth, congestion); see carrier for availability. Portion of memory occupied by existing content. MicroSD cards sold separately. Typical value tested under third-party lab conditions. Rated (minimum) capacity is less. Use only Zenith-approved chargers and cables. To avoid injury or damage to your device, do not use incompatible, worn or damaged batteries, chargers or cables. Supports up to 25W charging.
